EDUCATION

Bsc Hons in CSE ., *Institute of science trade and technology(ISTT), mirpur*
02/2018 – 04/2023 | Dhaka, Bangladesh
I obtained CGPA: 3.54 out of 4.

HSC, BARGUNA GOVT. COLLEGE, BARGUNA
06/2013 – 08/2015 | BARGUNA, Bangladesh

SSC, GARJONBUNIA HIGH SCHOOL AND COLLEGE
01/2011 – 04/2013 | BARGUNA, Bangladesh

PROJECTS

Multi vendor resturant management system, mobile app
06/2025 – 07/2025
<https://foodlab.site/> 🌐

Multi-Vendor Restaurant Management System

Description: Developed a web-based Multi-Vendor Restaurant Management System where multiple restaurants can register, manage their menus, and process customer orders from a single platform. The system includes separate dashboards for Admin, Vendors, and Customers.

Key Features:

- Vendor registration and approval system
- Restaurant-wise menu management
- Online order processing and status tracking
- Multiple payment gateway integration
- Commission-based earning system for admin
- Sales reports and order analytics

Technologies Used: Laravel, PHP, MySQL, Bootstrap, JavaScript, AJAX

multi rest room booking system, Mobile app
07/2025 – 08/2025
<https://backend.gotzpoop.com/> 🌐

Multi Restroom Booking Mobile Application

Description: Developed a location-based mobile application that allows users to find and book the nearest available restrooms. The app helps users quickly locate clean and verified restrooms using GPS and real-time availability tracking.

Key Features:

- Nearest restroom search using GPS & Google Maps integration
- Real-time availability status
- Online booking system
- Subscription-based access (Monthly/Yearly plans)
- Secure online payment integration
- User rating & review system
- Restroom owner panel to manage listings and bookings
- Admin dashboard for user, subscription, and revenue management

Technologies Used: Laravel (API), MySQL, Google Maps API, Payment Gateway Integration

Gerage booking system, Mobile App
